MEMORANDUM

To: Carnation City Council

Subject: Table of Permissible Uses (non-residential uses)

Origin: Amanda Smeller, City Planner

Date Submitted: March 13, 2020

Agenda Date: March 17, 2020

The Planning Board has spent its last several meetings working through an update to Chapter 15.40, Table of Permissible Uses. The update is specific to the non-residential uses portion of the table. Included in your packet is the current table, a track-changes version, and the final proposed version that the Planning Board settled on.

No uses that were previously allowed (either outright, conditionally, or by special use) were removed. Uses that were not allowed in any zone were omitted. The Public Use zone, now only an overlay, was removed from the table. Many similar uses were combined in order to decrease the overall length of the table. The main North American Industry Classification (NAIC) code is used to combine similar uses, but in some cases similar uses are still broken up if they are allowed differently in various zones. The lengthy subscript menu was also reviewed, with the Planning Board recommending removal of several that were no longer used in the new table.

These are the current subscripts, plus two new proposed at the end of the list. Planning Board recommends removing the starred ones:

(d) Duplex.

(e) Multifamily.

(f) Assisted living facility. For the purposes of complying with this housing mix standard, a dwelling unit is defined as a place of residence or a room. For a facility where residents have individual rooms that open onto central corridors, each room is considered a unit. Similarly, a room that opens onto a central corridor and contains two patient beds should also be considered one dwelling unit.

Note: Dwelling units in a senior housing development shall be counted based on the housing type defined above they utilize.

Exceptions: For lots less than ten gross acres in area as of the adoption date of this ordinance, at least two housing types shall be utilized and no single housing type may occupy more than 80 percent of the total dwelling units on a lot. Lots less than five gross acres in area as of the effective date of this ordinance [October 31, 2018] are exempt from the requirements of this Note 6.

(7) Duplexes and townhouses are permitted only when served by alley or other shared access where garages do not face the street.
